Subject: RE: Administrator's interest in Bay Delta Project

Thanks, Tim. I think it would be great if the Administrator could see a streamlined version of your powerpoint in order to get the big picture. Let me know if there is anything we can do to assist in focusing and updating it for that purpose or preparing any input specifically about the BDCP.

-Kathy

Thanks, Jane.

We never received any feedback from OW on the draft briefing paper we wrote for the Administrator, but I stand ready to add or subtract content.

If it would be helpful, I could streamline my Bay Delta powerpoint presentation add some updated content about the BDCP.

We could deliver that presentation to the Administrator in real time by WebEx so she can see the pictures, graphics, and text while we talk.

Meanwhile, please let me know if I can do anything to help with the outreach to Rep. Miller.

Tim

I will check in with Jared about follow up at my 3:30 update today.

I haven't seen the expected briefing for the Administrator pop up on the calendar yet.

Bob - this is one project that I would like to understand better. Can I get a tutorial on the CA water issues and where this project fits in?

Gina and Jared

I have a Deputies call tomorrow.

Cynthia. Susan Bromm will be with Ken K. Representing in person and I believe though have been developed with Region.

Ex. 5 - Deliberative

We shall see where that leads us.

This is a tense time in CA. And some how some cross delta movement of fresh water will be needed from the Sacramento. But that has to result in improved flows and habitat in the delta.

I don't think we are there yet.

Bob

Jared, can you reach out to Congressman John Garamendi from CA Tenth District re: the Bay Delta Project and alternative strategies that should be explored? I think you know John. He is very concerned that Gov Brown is weighing in heavily with folks in the WH and that the project will have devastating environmental consequences. Please let him know I asked you to contact him.
